**Bisazza mosaic tiles** exude world-class beauty, as shown here at Queen's Garden residence in Hong Kong. Available at the Bisazza showroom in the Miami Design District. Photo by Marc Gerritsen.

Perfect for an outdoor loggia, **Endless Tides** by **Chella** is available in white, sand and dove (shown here in dove), and features a trailing vine or wave design against a sheer background in double-width acrylic. Available through Jeffrey Michaels & Company at DCOTA in Dania Beach.

**Translucent polycarbonate stone stools** by **Kartell** are available in crystal, smoke, blue, red, yellow and amber. Available at the Kartell flagship store in the Miami Design District.

## Peek-A-Boo

Translucent elements reflect light and water, and provide a cool, subdued contrast in outdoor environments.

**The Detroit line** by **Baltus Collection** includes a chair, sofa, occasional table and folding screen, and features an aluminum frame with fabric or vinyl upholstery for either indoors or out. Available at Baltus Collection in the Miami Design District.
