

This playful hemp fabric requires no pesticides, leaving only a fleeting imprint on the fields where it is grown.
Oval (Pink Apple) available at www.hughstclair.com

Add a hint of exoticism with this fair trade organic cotton fabric, block-printed with natural dyes by southern Indian artisans.
Claudine (Gold) available at www.lesindiennes.com

Inject a splash of conscious colour with this bold recyclable fabric made from 100% post-industrial fibres.
Firewheel (Coral) available at www.mokumtextiles.com

This high-end decorative weave is made from recycled post-industrial materials otherwise slated for incineration.
San Marco (Smoke) available at www.chellatextiles.com

This hardwearing, 100% natural linen provides the perfect pop of whimsy with its fresh design and eco-friendly dyes.
Calliandra (Green) available at www.ferrickmason.com

Made from 100% recycled polyester and eco-friendly dyes this exotic motif adds mystery to any abode.
29191 (615) available at www.kravetgreen.com

Add oomph with this guilt-free geometric hemp textile that gets an eco thumbs up.
Link (Gold) available at www.hughstclair.com

Bright and cheerful, these tailored stripes evoke lazy summer days and are printed on a 100% linen union, combining eco-friendly flax and organic cotton.
French Ticking (Buttercup and Clay) available at www.vanessaarbutthnottfabrics.co.uk

Embrace your inner wild child with this stylish animal print that brings with it the peace of mind that only 100% organic cotton can provide.
Mary (Black) available at www.rubiegreen.com

The punchy Greek key motif on this indoor/outdoor fabric, made from post-industrial fibres, is bang on trend for summer.
St. Tropez (Avocado) available at www.fschumacher.com

Providing the perfect punch of hot pink, this contemporary print uses water-based VOC-free dyes and an eco-friendly printing method.
East Village (Raspberry) available at www.rubiegreen.com

ethical UPHOLSTERY

Long gone are the days when committing to an eco-friendly fabric meant giving up all hope of style. Today, the world's leading fabric design houses are embracing the green trend and creating ever more luxurious and wide ranging textile collections that are easy on the eye as well as on the earth. Whether you desire a fully saturated colour shock or a more subtle design, our eco-friendly fabrics will help you save the planet, one upholstered settee at a time. By Elly Hails
