ZESTY ORANGE

High-octane colors add vivid vibes to summer settings. Spicy oranges, hot pinks and swimming-pool blues are among the season's most popular. From fiery coral to tangy tangerine, shades of orange add sizzle to the season with a trio of pillows in outdoor fabrics that play off geometrics and simplicity, including, *from left*, Chella's "Jamaican Stripe," Donghia's solid orange canvas-like "Seabreeze" by Sunbrella and Trina Turk's interlocking circles for Schumacher called "Sunglass Print." D'Apastrophe's 25-inch round Ball chair, designed by Finn Stone using recycled plastic, can liven up any room with its bright orange DuPont paint finish. On Wisteria's adjacent stool, called Cooper, are Baccarat's Mosaique Tumbler, crafted in orange crystal, and Hermès' Sellier silk scarf. Nami Fabrics' outdoor "Brocade" fabric covers cushion holding Hermès' Faune et Flore de Logori square porcelain plate. In center are Roche-Bobo's Rondo ceramic vases, designed by Les Heritiers, for holding flowers. Interlocking tile samples are from Artistic Tile's stained-glass Bamboo pattern collection.
