Centiva presents homogeneous and wear-layered products for extra heavy commercial usage. Our extensive selection of flooring choices, custom design, and fabrication capabilities allows limitless possibilities for creativity and individual expression. Our ultrasonic cutting machine provides designers the ability to put their vision onto the floor. The entrepreneurial spirit of Centiva enables us to be responsive to the needs of our clients. From exacting deadlines, short lead times, and innovative problem solving, we excel in service to our customers. Our core commitment is to design and manufacture internationally recognized flooring products in a world class manner. Environmental responsibility is an important aspect of that. Our Centiva Green Way initiative was launched to meet that challenge. From raw materials, the production process, to our final product, we are aware of our affect on the earth every step of the way.
