14. **Angela Cameron Fine Art Inc.** presents large mural installations for healthcare interiors. ACFA's extensive portfolio of high quality fine art imagery provides style, color, subject matter, and drama for any space. www.angelacameron.com

15. Part of **Chella Textiles'** new Radiance Collection, Quicksilver, Medallion, and Facet are 100 percent solution-dyed polyolefin and are the first-ever outdoor fabrics woven with a metallic yarn for glamour and shimmer. Ideal for indoor and outdoor upholstery and drapery applications, the fabrics are machine washable, colorfast, lightfast, and resistant to stains, mold, and mildew. www.chellatextiles.com

16. Alphenberg **Buffalo Leather Tiles** are 100 percent recyclable and 98 percent biodegradable; water, stain, and damage resistant; have a 'no burn' rating; glue directly onto level surfaces in high traffic commercial areas; and are the 'no waste' remainder after the animal provides food. They are available in eight natural colors with two finishes (satin and flat), various embossed patterns, and are customizable. www.alphenberg.com

17. One Way from **Aqua Hospitality Carpets** is the latest edition to its running line products. A 1/10-gauge tip sheared loop offers a linear stripe complemented with a soft, subtle, geometric tip sheared background. Available in seven neutrals and contemporary colorways, this 100 percent Avalor solution dyed nylon is designed for both public and guestroom applications. www.aquahospitalitycarpets.com

18. The ECO-MATIC Bed Frame from **Hollywood Bed** is made of high-carbon recycled railroad T-rail. The manufacturing process creates a negative carbon footprint as landfill methane gas, not natural gas, is used to reheat the steel thereby eliminating greenhouse gases. The bed frames also have a water-based lead-free finish, and feature recyclable glides and rollers. www.hollywoodbed.com

19. Unshielded by opaque materials, light has the power to pre-determine and influence our emotional responses to built environments. **Milliken's** Allumé collection celebrates the nuances of color created by intricate shading and movement with expansions of color space never before possible. Now, designers can evoke more emotion with flooring that showcases how light as design inspiration adds sophistication and drama to the floor. www.milliken.com ■■
